ARCHANA P

SOC Analyst Intern (Tier 1)

archana.p2442@gmail.com | +91 9778562319 | LinkedIn | GitHub | Portfolio | Malappuram, India

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in SOC operations, SIEM monitoring (Splunk, Wazuh), alert triage, false positive reduction, and incident response across Windows and Linux environments. Proficient in threat detection, MITRE ATT&CK mapping, phishing and malware triage, and playbook-driven incident documentation. Strong analytical and written communication skills with ability to prioritise tasks under pressure and document findings through structured incident reports.

SKILLS

- SOC Operations
- Alert Triage
- False Positive Triage
- SIEM Monitoring
- Endpoint Security
- Log Analysis
- Threat Detection
- Incident Response
- Malware Triage
- Phishing Triage
- Network Security
- TCP/IP, DNS, HTTP

TOOLS & FRAMEWORKS

- Splunk
- Wazuh
- Wireshark
- Suricata
- Snort
- TheHive
- VirusTotal
- n8n (automation)
- Burp Suite
- Nmap
- Metasploit
- MITRE ATT&CK

PROJECTS

AI-Assisted SOC Alert Automation — Splunk, n8n, Ollama

- Engineered an end-to-end SOC alert pipeline in Splunk to detect and triage RDP brute-force events from Windows event logs; automated Tier-1 false positive filtering and real-time Slack notifications via n8n, enabling sub-60-second response and eliminating manual alert review.

Threat Detection & Log Analysis — Wazuh SIEM

- Deployed Wazuh SIEM across Windows and Linux endpoints to centralize log ingestion, implement brute-force detection rules, and integrate Suricata IDS — identifying 15+ simulated attack scenarios including RDP/SSH brute-force, phishing indicators, malware IOCs via VirusTotal, and file integrity monitoring.

TryHackMe SOC Training Labs

- Completed 50+ SOC-focused labs covering alert triage, SIEM log analysis, MITRE ATT&CK threat mapping, incident containment procedures, and Linux privilege escalation — achieving Top 15% platform ranking.

TRAINING / EXPERIENCE

Cyber Security Trainee — Offenso Hackers Academy Jul 2025 – Jan 2026

- Conducted Tier-1 incident triage, phishing analysis, and vulnerability identification in enterprise-replicating lab environments; documented 20+ incident investigation reports following structured SOC playbooks and incident response workflows.

EDUCATION

University of Calicut Sep 2022 – Mar 2022

B.Sc. Computer Science

CERTIFICATIONS

- Offenso Certified Security Professional (OCSP) — Offenso Hackers Academy
- Introduction to Cybersecurity — Cisco Networking Academy
